DEFERRED-NEWS.

To Canadian Pilgrims—Great Importation of Bibles.

The *Guardian* says:—Our readers will scarcely credit that in this year of grace, 1861, an announcement like the following could be made in a Canadian newspaper. We nevertheless beg to assure them that it actually did appear in Thursday's *Canadian Freeman*, published in this city, as a plain, matter-of-fact statement.

"St. AGATHA, C. W. A. PLACE OF PILGRIMAGE.—In the year 1859, the Rev. Father Fuenken laid the foundation of a new cemetery in St. Agatha, with a stone wall around it, in which are erected the fourteen stations of the Cross. At the extremity of the cemetery is built a chapel in honor of the Mother of Sorrows. In this chapel we find united in a certain manner the most celebrated pilgrimages of the old world; for whatever is the object of veneration in Jerusalem, Bethlehem, Rome, Loretto, &c., we find in a small proportion united in this chapel. Besides the picture of the Mother of Sorrows, a real masterpiece, which was received last year from Rome, there are the following holy relics:—A particle of the holy cross, and another of the manger; a stone of the grotto of Gethsemane (*ex crypta agonizans*); dust of the holy house in Loretto; and of the sepulchre of the Holy Innocents; and of the place where St. Peter was crucified; relics of the garment and the grave of the Blessed Virgin Mary, of the mantle and workshop of St. Joseph, of the grotto and house of St. John Baptist, of the house of St. Elizabeth, the Sepulchre of St. Anne, of Mount Sion and Calvary, SS Peter and Paul, SS Ambrose and Augustine, SS Francis of Assisi, and Augustine of Sales, and Francis Xavier, St. Anthony of Padua, St. Dominic, St. Vincent of Paul, St. Roch, St. Stanislaus, &c.; a copy of the *Book of Hours*, &c., &c.

"On account of all this, and because the Catholics of St. Agatha, and surrounding missions, were accustomed to visit this chapel with particular devotion, the Rev. Father Fuenken applied to the Holy See, with the request that he would open the treasury of his holy church, and favor the pious pilgrims to the chapel with some particular indulgences.

"This desire has been completely satisfied for by brief, dated June 25, the Holy See has been pleased to grant a plenary indulgence to all the faithful who shall visit the chapel, receive the sacraments of confession and communion, and pray for concord among Christian Princes, the extirpation of heresy and exaltation of the Church, at any hour from sunrise to sunset on the following days:—1st, On Friday in Passion week; 2nd, On the Feast of the Immaculate Conception, and the Feast of the Holy Cross; 3rd, On the Feast of St. Agatha; 4th, On the third Sunday in September, and on every day in the octaves of the above-mentioned feasts. Moreover, an indulgence of 300 days is granted to all who, on any day in the year, shall visit the chapel, and, with a truly contrite heart, recite some prayers with the same intention as above. All these indulgences may be applied to the souls in Purgatory.

"To the great honour of God and of His Holy Church."

An Early Session.

The Montreal *Pilot* has the following:—"It is said—with what truth we know not—that there will be an early session of the Legislature held about the month of October next. The wants of the Grand Trunk are given as the grounds for this prediction, and for aught we know it may turn out to be true."

"It is said" that Mr. Watkin, who had just come out from the Pacific, as Grand Trunk plenipotentiary, will insist not only on a new robbery measure, but on its being passed at a session to be held in the autumn, in time to permit the road to have the benefit of the relief during the winter.

"It is said" that the Ministry do not like to face the music in this direct way, and dread a defeat. "It is said" that Mr. Watkin will put on the screws, and bring the weak brethren up to the mark. "It looks" very much as if Mr. Watkin would succeed, when the *Pilot* speaks so freely of the Fall session. *Globe*.

Sudden Death of Mr. T. HUTCHINSON.—Mr. Thomas Hutchinson, an old merchant of this city, and former proprietor of the "Pantetheatre," was suddenly killed some time during Thursday night. The deceased had rooms on the third story of the "Pantetheatre," where he slept, procuring his meals at a neighboring restaurant. No one else slept on the premises. Yesterday morning when Mr. J. Meyers, dentist, entered the side door of the establishment on his way to his office, which is on the second floor, he was shocked to find the dead body of Mr. Hutchinson lying on the floor of the stairs, down which he had apparently fallen. He lay on his face, and on the floor there was a small pool of blood, which had flowed from a cut on the nose. The body was removed to the upper story of the building and Coroner Duggan notified of the sad occurrence.

84 COUNTERFEITS.—Mr. Wright, of the Bank of Upper Canada, says the *Free Press*, has shown us another photograph of counterfeit on the Bank of Montreal, which was presented at the Upper Canada Bank in a parcel of other bills. The specimen in question is a photograph of a counterfeit note, which would be a great loss to the bank. The number of the note is 8178, and the date Aug. 1, 1856. This is printed in red across the bill. As it is likely that other photographs from the same bill are in circulation, the public should be on the look out for them.

GRAND TRUNK "FURTHER ADVANCE."—The *Pilot*, a Ministerial organ, says:—"Men in office may indignantly deny any intention on the part of the administration to make 'further advances' to the concern; candidates to oppose any grant to the Company of public money; newspaper editors may rave and rant in similar strain; and that large body of the *Post-Office*, may denounce the very idea as treason and sacrilege; but still, we again say, it must be done."

"All right," said Pat, "I know ye was mistaken, for I'm the same. Long live the General!"

"Aha," replied the scout, "now, you see, you are my prisoner," and seized him by the shoulder. "How is that?" inquired Pat, "have ye not friends?"

"I have," was the answer, "we belong to General Beauregard's army." "This ye would make a lie, my boys, and thinking it might be so, I could ye another—now tell me the truth, I'll tell ye the truth!"

"Well, we belong to the State of South Carolina," "So do I," promptly responded Pat, "and so do all the other States of the whole lot; and there I am thinking I bet the whole of ye. Do ye think I would come all the way from Ireland to belong to one State, when I had a right to belong to the whole of 'em?" "This logic was rather a stumper, but they took him up, as before said, and brought him for further examination.

It is pretty evident from this specimen, that Pat needed no prompting in a closer examination, and bearing no evidence that he was a spy, they let him off, and the more readily, as while he assured them he was no "politician," he persisted in thinking that any man was a great fool to belong to only one State when he had a right (as he said) of belonging to thirty-four States, "besides the Territories."

A soldier was once wounded in battle set up a terrible howling. An Irishman who lay near with both legs shot off immediately sang out, "Bad luck to the likes of ye—do ye think that nobody is killed but yourself!"

"I don't miss my church so much as you may suppose," said a lady to her minister, who called on her during her illness; "for I make Betsy sit at the window, as soon as the bells begin to chime, and she tells me who are going to church, and whether they have got on anything new."

YOUNG MEN.

There is an evil habit sometimes indulged in by boys, in solitude, often growing with them into manhood, and which, if reformed by them in due time, not only gets scarce, but gives rise to a series of protracted, hazardous, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and uncomfortable feelings, and vague fears in the mind. It is fatal to the system, and a most formidable enemy of health for nothing else so rapidly catologues of human diseases causes a destructive drain upon the human system, drawing its thousands of victims through long years of suffering down to an untimely grave. It destroys the nervous system

rapidly, wastes away the energies of life, and causes premature senescence. It is the proper development of the system, diaphanous for marriage, society, business, and earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself.

YOUNG MEN TAKE PARTICULAR NOTICE.

Dr. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to test by the most eminent physicians in London, Paris, Philadelphia and New York; it has been declared the only useful instrument ever invented for the cure of the above diseases, or any disease of the genital organs, caused by the secret habit.
